Seabird Western Australia

A small quiet coastal fishing area just over an hours drive north of Perth. Population 80.
The foreshore has suffered major erosion and is subject to much more future damage by storms.
A good spot for lunch of fish & chips by the Indian Ocean. From Seabird, drive north for 290km along the scenic Indian Ocean Drive to Geraldton.
A change from the Southern Ocean to the Indian Ocean. Great to see the ocean again.
3000km from home.
