Timber Creek

600 kilometres south of Darwin. The Timber Creek Caravan Park is next to the Hotel. I erected my tent. Should have stayed in an onsite unit. Unable to sleep because of the many thousands of flying foxes roosting in the billabong overnight. Frequent ed by fresh water crocs. The Victoria River is a few ks away. The park owner joked I should be ok overnight as no dogs have gone missing in a while from saltwater crocodile attacks. Next morning a fellow park resident in a caravan commented they were wondering if I would still be here. Taken by a croc. overnight. The creek is linked to the river.
